

Connecting travelers with **places to stay** around the world.

A global online accommodation booking marketplace designed to make discovery, booking, property distribution and hospitality partnerships simpler.

RapidRoomz™

Hotels • Resorts • Villas •
Apartments • Guest Houses •
Unique Stays

COMPANY OVERVIEW

Built for the modern accommodation marketplace.

Who we are

RapidRoomz™ is an online accommodation booking marketplace that connects travelers with hotels, resorts, villas, apartments, guest houses, homestays, dormitories, capsule hotels and treehouse / eco-lodge stays.

The platform is owned and operated by **ePorichoy LLC, USA**, and is designed as an independent online travel intermediary between guests and participating accommodation providers.

1

Unified digital marketplace

“Our goal is simple: make it easier for travelers to find a stay they can trust, while giving accommodation providers a practical digital channel to reach new guests.”

Current platform facts are based on RapidRoomz™ public website, partner policy, FAQ and legal pages reviewed in September 2026.

PURPOSE

Stay. Explore. Belong.

Our Vision

To build a trusted global accommodation marketplace where travelers can discover diverse places to stay and property partners can reach a wider digital audience.

Our Mission

To simplify accommodation discovery and booking through transparent pricing, practical property management tools, secure payment infrastructure and direct digital connectivity with accommodation partners.

T

Trust

Clear booking information, partner policies and transparent commercial terms.

G

Global Reach

Designed for travelers and accommodation providers across international markets.

I

Innovation

Technology, APIs, inventory connectivity and digital workflows at the center of the platform.

Discover

Book

Belong

ACCOMMODATION ECOSYSTEM

More than hotel booking.

RapidRoomz™ is structured to support a broad range of accommodation formats, allowing travelers to search beyond conventional hotels while giving property owners a common digital distribution channel.

H

Hotels

From business hotels to full-service properties.

R

Resorts

Leisure stays, beachfront and destination resorts.

V

Villas

Private and premium villa-style accommodation.

A

Apartments

Flexible stays with apartment-style facilities.

G

Guest Houses

Independent and boutique accommodation.

E

Homestays

Local, residential and experience-led stays.

D

Dormitories

Hostel and shared accommodation options.

C

Capsule Hotels

Compact accommodation for modern travelers.

T

Treehouse / Eco Lodges

Unique stays are included alongside traditional accommodation categories, helping travelers discover different types of hospitality experiences.

FOR TRAVELERS

From search to stay — one digital journey.

01

Search

Search by destination, dates, guests and rooms to discover available accommodation.

02

Compare

Review property information, room options, pricing and applicable booking terms before confirming.

03

Book

Complete the reservation through the platform using supported payment methods and receive booking confirmation.

04

Stay

Use the booking voucher and property information to complete the guest journey.

Traveler-focused principles

Transparent pricing: mandatory charges are intended to be disclosed before booking confirmation.

Instant booking workflow: the platform supports booking confirmation and voucher issuance for eligible reservations.

Choice: travelers can browse different accommodation categories rather than a single property type.

Traveler workflow and platform features are summarized from the RapidRoomz™ homepage, FAQ and terms pages.

FOR HOTELS & ACCOMMODATION PROVIDERS

A digital distribution channel built around the property.

10%

Transparent commission model

RapidRoomz™ currently publishes a maximum 10% platform commission for confirmed bookings, with no hidden middleman fees under its partner policy.

Property control

Partners can manage property information, room details, rates, availability, photos and policies through their account.

Global exposure

A digital marketplace gives participating properties another channel to present their inventory to travelers beyond direct sales.

Partner onboarding

01 • Register

Create the property owner account.

02 • List

Add property, rooms, rates and photos.

03 • Review

Submit the property for platform review.

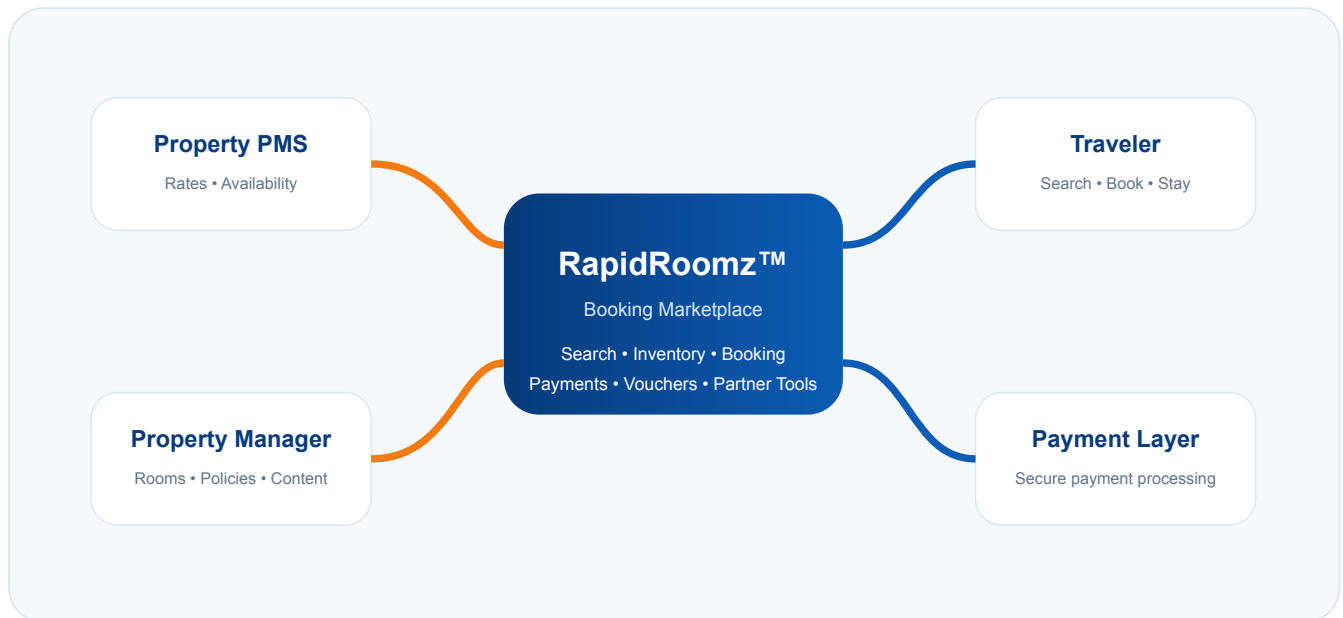

04 • Go Live

Publish eligible inventory for travelers.

TECHNOLOGY & CONNECTIVITY

Designed to connect inventory, bookings and partners.

API

Server-to-server integration

RapidRoomz™ supports API connectivity for channel managers and inventory synchronization systems.

Inventory synchronization

Connected systems can exchange room availability and rate information through supported integrations.

Booking synchronization

Integration architecture is designed to connect RapidRoomz reservations with participating property systems.

Technology direction

RapidRoomz™ is being developed as a platform rather than a static booking website — with partner APIs, inventory synchronization, booking workflows, secure payment infrastructure and administrative controls forming the technology foundation.

Connectivity statements reflect the current RapidRoomz™ FAQ and platform integration direction.

BOOKING ECOSYSTEM

One marketplace. Multiple transaction paths.

Online payment

The public FAQ states that eligible guest bookings can be completed using supported card payments through Stripe or PayPal.

Payment availability can depend on property and booking configuration.

Pay at Property

RapidRoomz™ can also support property-specific payment arrangements where the guest pays the accommodation provider directly under the property's applicable terms.

Layer	What RapidRoomz™ provides	Partner / traveler responsibility
Discovery	Search, property presentation and room availability display.	Property supplies accurate content and travelers select their preferred stay.
Reservation	Booking workflow, confirmation and voucher issuance for eligible bookings.	Guest provides accurate booking details.
Payment	Supported payment processing and booking payment workflow.	Property follows its agreed payment configuration.
Stay	Booking information and support channels.	Property fulfills the accommodation reservation.

RapidRoomz™ operates as an online intermediary: the accommodation contract is between the guest and the respective property host, unless otherwise explicitly designated.

Booking/payment information summarized from RapidRoomz™ Terms and FAQ, reviewed September 2026.

TRUST INFRASTRUCTURE

Trust is part of the product.

Partner standards

RapidRoomz™ publishes accommodation partner standards covering accurate property information, authentic photography and compliant accommodation listings.

Payment security

The platform states that card processing is handled through Stripe and that it does not store raw card data on RapidRoomz servers.

Privacy framework

RapidRoomz™ publishes privacy and data-protection policies addressing GDPR/UK data rights, CCPA/CPRA rights and data minimization.

Published trust & compliance framework

GDPR / UK data rights

CCPA / CPRA

Stripe payment processing

TLS protection

KYC / partner verification

DMCA process

Consumer rights disclosures

Trust • Privacy • Security

The items above describe policies and security statements published on RapidRoomz™ legal, privacy, security and partner-policy pages. Published controls and claims should be reviewed periodically as the platform evolves.

BUSINESS MODEL

A straightforward accommodation marketplace model.

10%

Property commission

RapidRoomz™ currently publishes a maximum 10% commission on confirmed bookings under its partner policy.

The exact commercial treatment of individual reservations is governed by the applicable partner agreement.

Value exchange

Property: gains another digital sales and distribution channel.

Traveler: gains access to accommodation discovery and booking tools.

RapidRoomz: earns platform commission for eligible completed/confirmed business according to partner terms.

GROWTH & EXPANSION

Build supply. Build demand. Build connectivity.

- Phase 1 — Strengthen the core marketplace**
 Expand high-quality property supply, improve listing completeness, increase booking liquidity and refine traveler conversion.
- Phase 2 — Deepen partner connectivity**
 Expand direct PMS / API connectivity, inventory synchronization and partner automation so more properties can operate efficiently at scale.
- Phase 3 — Expand market coverage**
 Increase destination and accommodation coverage while developing localized partnerships, content and customer acquisition channels.
- Phase 4 — Grow the RapidRoomz ecosystem**
 Develop loyalty, partner services, B2B connectivity and technology products that strengthen the marketplace around the stay.

Strategic direction

RapidRoomz™ is positioned to grow through a combination of property acquisition, traveler demand generation, technology connectivity and long-term hospitality partnerships rather than relying on a single acquisition channel.

WORK WITH US

Partnerships that strengthen the travel ecosystem.

Accommodation Partners

Hotels, resorts, villas, apartments, guest houses, homestays, hostels and unique-stay operators can join the marketplace.

API

Technology Partners

PMS, channel manager and hospitality technology providers can explore direct connectivity and inventory synchronization.

B2B

Distribution Partners

Travel companies and business partners can explore opportunities to extend accommodation distribution and booking reach.

What we look for

- Quality accommodation supply
- Reliable operational standards
- Accurate inventory and rates
- Technology integration opportunities
- Long-term commercial relationships

A successful marketplace is built through dependable partners on both sides of the booking.

PLATFORM ECOSYSTEM

Designed to grow beyond a booking page.

The long-term opportunity is to create a connected hospitality ecosystem where accommodation supply, traveler demand, property operations and travel technology reinforce each other.

This page describes strategic direction and current platform components; future features are subject to product development and rollout.

BRAND

A brand built around movement, discovery and belonging.

Brand promise

RapidRoomz™ brings the booking journey into one recognizable experience — from discovering a destination to choosing a property and completing a stay.
